

## **REMARKS**

Claims 1-16 are pending in the application, with claims 11-16 being allowed and claims 4-8 and 10 being indicated to be directed to allowable subject matter (assuming correction of an antecedent basis issue in claim 6). Claims 1 and 6 are amended to correct minor antecedent basis issues, and claims 4 and 10 are amended to be independent so that claims 4-8 and 10 should now be allowed. Claim 1 is also amended to clarify that the stator includes a series of vanes or blades. Reconsideration and allowance of all claims is respectfully requested in view of such amendments and the following remarks.

### **Drawing Objection**

The drawings are objected to for minor informalities. Replacement sheets are being submitted with this Response. No new matter is being presented. Accordingly, the objection should be overcome.

### **Rejection Under 35 U.S.C. § 112**

Claim 6 is rejected under 35 U.S.C. § 112, second paragraph, for lack of antecedent basis. That issue is rectified by amending claim 6 to depend from claim 5, which provides the necessary antecedent support. Accordingly, Applicant requests that the rejection be withdrawn.

### **Art-Based Rejection**

Claims 1-3 and 9 are rejected under 35 U.S.C. § 102(b) as anticipated by DE 4334339. Applicant requests reconsideration of the rejection and requests that it be withdrawn. As discussed with the Examiner by phone, amending claim 1 to specify that the stator includes a series of blades or vanes clearly differentiates over DE '339 since the volute in that reference – what the Examiner construed as a stator – clearly does not have such structure.

In view of the foregoing, Applicant submits that all claims are in condition for allowance, and timely Notice to that effect is respectfully requested.
